Centrals 1 134@1 144 STOCKS

The stock market opened higher on the improved financial reports from Europe with an average advance of 1601 per cent in the leading stock. The improvement established in most of the general market was lost before noon to-day and at

few periods of weakness was strong and advanced. The Northwestern shares were the features of the day and closed at an advance of 5 per cent for the common and 4 for the preferred. The advance in these shares attracted much attention and various reasons were ascribed therefor, it being reported that scrip dividends were imminent and one of the leading dealers was short and some of the bulls were bursting them, and that Vanderbilt was selling New York Central and Lake Shore and buying Northwestern. None of these reports, however, could be authenticated. The advance in the general list ranged from 1@13 per cent. The specialties in which dealings were very limited closed 1@ 14 per cent higher.

disposal of the official brokers in Paris for their case in tiding over the present department. Rentes are to-day rising.

London, February 1.

The markets to-day are better, with a feelings of security reviving.

At the stock exchange in this city and at the different bourses on the continent the markets closed firmer with better feeling prevailing. This is in a great measure due to the prompt action of the syndicate of bankers in placing by the French government 2,000,000 francs at the disposal of the official brokers to enable them to meet the coming liquidation at the disposal of the official brokers to enable them to meet the coming liquidation the firm to meet the coming liquidation of the Sth inst.

The Optical Phenomenon Witnessed in Omaha Tuesday Night. Mother Shipton has been resurrect

ed and stalks about in her grave clothes predicting us all kinds of mishaps and catastrophes, from a spell of polar cold to another bloody rebellion. And why? All on account of a beautiful and innocent optical display in the heavens last night. Lunar halos are of very frequent

occurrence in this latitude. Any one observing the sky carefully when the atmosphere is milky or hazy, and the stars seem dull, will notice a circle of prismatic colors formed around the moon, having a radius of 22 degrees, the moon occupying the center of the circle. The inner edge is colored red, and is tolerably well defined, the outer edge is of a pale blue, and is not sharply defined. The sky within the halo is much darker than it is for a distance of several degrees without the halo. The light of this halo is always po-

ice floating in the atmosphere.

What made this particular halo so National A sociated Press rare a phenomena last night, and one which few, if any of us, have ever witnessed, was its appearance in connection with a circle passing through the moon and parallel to the horizon.

This is called a parhelic circle, and is produced by the reflection of the Otto C. Buttz, asking for leave to file moon's light from ice prims or snow information in the nature of quo warcrystals whose surfaces have a vertical ranto against Knickbooker, who asposition. When the air is tranquil, the sumed to act as judge of the probate court of Cook county, created by a atmosphere descends slowly to the void and unconstitutional statute. The earth, and they tend to assume that court entered judgment of ouster position in which they experience the against him. Thereupon appeal was

from such snow flakes as are situated on a horizontal circle passing through the moon. This circle never exhibits prismatic colors like the halo. Near those points where the halo

cut the parhelic circle there is a double cause of light, and here the illumination is sometimes so great as to too intimate with his wife, and was present the appearance of a mock sun, and is called a paraselenae. These, like halos, are of various kinds and degrees, and occur through

the action of the sun's light as well as from the jury, was to day convicted a through the moon's, in which former case, however, they are called parhe-From this it will be seen that the beautiful display offered us by dame nature last night had no meteorlogical significance, causing neither cold nor

heat, neither war nor famine, but is merely a freak, as a grouping, as it were, of certain atmospheric bedies in proper light, which afford us the beautiful reflections.

The Portage and Superior Rioters.

St. PAUL, February 1 .- A special from Superior City says a row oc-curred between the Portage & Superior railroad workmen last night, during which a Canadian named Murphy was fatally stabbed by a fellow laborer. The men had been drinking all day and were primed for deviltry of any kind. Superior City does not know what to do with the rioters. Though offered work by the Northern Pacific and other roads they refuse to leave until paid by the Air. Line. They are being fed by the county, who fear another serious outbreak if supplies are cut off.

Fire Eaters

National Associated Press. COLUMBIA, S. C., February 1. State Senators Fishburne and Smythe had a serious misunderstanding Monday, and a duel is expected by their friends. Fishburne was seeking Smythe yesterday, with threats to kill him. Both senators have been arrested.

A Fine Set

Augusta, Ga., February 1 .- Anderson Singleton and Lucinda Tis-dale brutally murdered Phœbe Tis-dale, Lucinda's sister, in Williamsburg county, S. C. Singleton had been living with Phoebe, and lately took up with Lucinda.

SMITH'S SMILES.

in More Ways Than

One.

The Agent of the Wheeler and Wilson Company Departs Under Curious Circumstances.

On Saturday last an important charge was made in the office of the general manager of the Wheeler and Wilson sewing machine company for the northwestern factory, which em-Whisky—Nominal.
Petroleum—Market unchanged and dull;
United, 80%c; crude in barrels, 62,00.72 c;

braces Nebraska, Montana, Wyoming and Dakata. The General Manager Sidney Smith was relieved and his place filled by a gentleman from Chicago. The cause of Smith's removal was stated to be his somewhat irregular management of the affairs of the company, on account of his partiality for the cup which cheers and does (at times) inebriate. The climax of some of his alleged mismanagement was reached a few weeks ago, when in one of his reports he sent in a deficit of \$500 credited to a highway rebbery he claimed to have suffered The factsconcerning the highway robbery are claimed to be that Smith "took a walk with some \$500 in his pockets and laid down on the sidewalk, under the impression that he was going to bed. Some one came along and relieved him of his coat, and the circumstances under which

it was lost suggested the propriety of no investigation. However, these things may be, true or untrue, a change was made in the office, as above stated, and on Sunday Smith took his family out of town with him, leaving on an eastern train. It is now rumored that there has appeared a large deficit in Smith's accounts since his departure, and that the company is out about \$1,300. At the late hour last evening when this report was first made public, it was impossible to obtain more definite information, or to corroborate the

rumor by figures from the books. The reported deficiency will call to mind Smith's active part in the prosecution of Harry Garrigan, one of his agents, last summer on the charge of embezzlement. At that time Smith claimed that Garrigan had embezzied large amounts from him, but when the case came to trial in the district court the jury failed to find a sufficient sum to warrant conviction. Then Garrigan was re-arrested on the charge of forgery, and was convicted of forging an order for \$6. Upon this conviction he was sentenced to three years in the penitentiary, and is now serving out his time. Upon the trial the defense set forth certain things bearing upon Smith's relation to the case and his mismanagement of business, but this testimony came mostly from Garrigan and was overlooked by the jury. Should Smith's reported deficiency be confirmed it may let some light in upon the Garrigan case, and may show the man now in the penitentiary to be less guilty than the larized in the direction of a tangent to the circumference, which proves man who is out of it. that its light has suffered refraction

and not reflection through crystals of The Cook County Probate Court

CHICAGO, February 1.- The agreed case to test the constitutionality of least resistance from the air. For most torms of snow flakes this position will be when the principal faces of the crystal are perpedicular to the horizon, and are perpedicular to the horizon, and the court was prima facie against him. Thereupon appear was allowed in bond of \$500. In passing on the case, the court said that the recent decision of the supreme court was prima facie against him. Thereupon appear was allowed in bond of \$500. In passing on the case, the court said that the recent decision of the supreme court, which, under the circumstant and the court, which, under the circumstant and the case of the court said that the recent decision of the supreme court, which, under the case, the court said that the recent decision of the supreme court. the light may reach the eye reflected ces, would not be safe in continuing to transact business.

Escaped with a "Lifer."

KANSAS CITY, February 1.-Chas. Jefferson, who killed Wm. Mulholland about one year ago, for being convicted three months ago of murder in the first degree and subsequently granted a new trial on the ground that a colored man had been excluded second time, this time for murder in the second degree. He was sentenced to imprisonment for life. Jefferson is a colored man and his victim was white.

Wisconsin Legislative Matters-

National Associated Press Madison, Wis., February 1. - Today in the senate Mr. Sampson's bill repealing the anti-treat law was or-

dered to a third reading.

A sharp fight occurred on a motion to suspend the rules and pass the substitute to the Omaha land grant bill, the amendment being, "That said company shall pay laborers of the de-funct Air Line road." The motion to suspend was rejected. The amendments were finally ordered printed. A bill was introduced to regulate the sale of liquor. The bill is sub-stantially the Nebraska license law.

The Virginia Legislature.

RICHMOND, Va., January 1 .- Adverse reports were made in the house to-day on the bills abolishing chain gangs and punishment by stripes and substituting imprisonment. The questions promise lively debate when the reports come up before the house

for final action.

The senate by a vote of 18 to 13 indefinitely postponed the bill placing restrictions on railroad and steam boat companies in the matter of trausporting freights, etc., on Sundays.
